**"From the Earth, from the Spirits,
from The Herb Store to You"**

The Herb Store began in a little room about 17 years ago when a couple of therapists decided to open an apothecary to serve their clients. Despite sporadic hours, a small staff, and herbs supplied solely by wildcrafters, the store fulfilled a need within its community.

The Herb Store has grown; we are now the community's main resource for herbal supplements and natural products, serving novice and professional alike. We have everything you need to make your own herbal remedies, as well as offering you the full spectrum of packaged herbal and natural products. While we continue to purchase local herbs from the ethical wildcrafters we have relied upon in the past, we also purchase herbs from farms I have visited, choosing organics as much as possible.

We serve our community thru the practice of our mission statement: *"To carry the highest quality herbal products available on the planet and to educate people about their use"*. We offer classes on Aromatherapy, Soapmaking, Herbal Medicine, and special topics on a year round basis and we have just remodeled our store in order to carry even more unique teas and herbs.

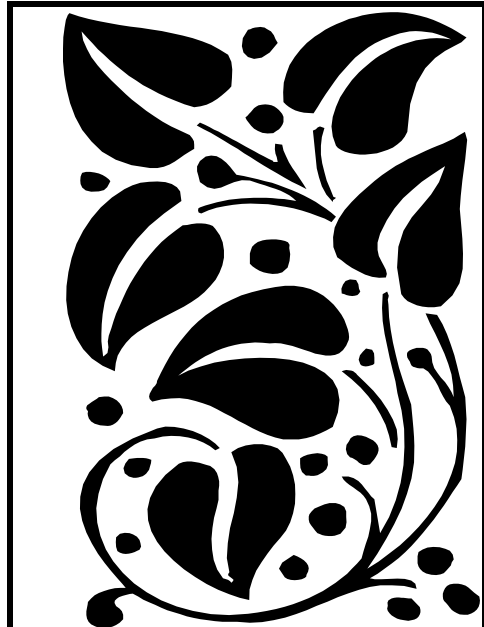

The Herb Store Catalog is my gift to all our customers -wherever they may be- who have walked with us in our journey. I hope you will enjoy this catalog and use it often. I hope you will empower yourself with the knowledge herbal healing holds and share this knowledge with others. Please let us assist you in any way possible.

Welcome to the journey.....

Herbal Healing

People of the Earth have used plants for healing physical, emotional, and spiritual dilemmas for as long as we have gathered our sustenance from the soil. Herbs not only provide medicine, but also key nourishment for our survival. Using herbs for healing brings us to our own roots; we are a part of this Mother Earth and she will heal us. Remember, herbal remedies are not a quick-fix-take-your-pill cure, but rather a lifestyle choice that can help the individual take more control of their health.

Bulk Herbs

There is a 1oz. minimum order. Pound orders (16 oz.) reflect a 10% discount. Most herbs are available in capsule and tincture form, please call for prices. Prices may vary due to market fluctuations.

Chinese Patents

These are herbal formulas using Chinese herbs to achieve their desired effect. Usually, these are taken with tea, chewed, or prior to or after a meal. They can be used in both chronic and acute situations and some are meant to be used as a long term tonic to improve overall health. Most people who use patents know what they are looking for but if you have any questions, please give us a call....

A yurveda

Whereas Western medicine seeks to solve the problem, Ayurvedic medicine seeks to provide a balance in which the problem is solved thru the elimination of the cause. Ayurveda is a Tridoshic (three humours) system which strives for a balance between the three elements which make up a person's constitution. The three elements are Vata (air and ether), Pitta (fire and water), and Kapha (water and earth). The order and disorder of these doshas are affected by weather, climate, time of day, season, foods, emotional dilemmas, and many other factors. If you are looking for balance in your life, Ayurveda may hold the answer.....

There is a 1 oz. minimum order. Pound orders (16 oz.) receive a 10% discount.
